SUMMARY

As an aspiring software engineer, I am deeply passionate about technology and committed to applying core coding principles. My dedication to collaborative problem-solving and continuous learning drives me to improve my software engineering skills. I am excited to leverage my abilities to support a company in achieving its software development goals.

WORK EXPERIENCE

Web developer Intern , Miyens Technologies   **July 2019 -September 2019**

- Conducted web responsiveness assessments, addressing issues to enhance user experience across multiple browsers..
- I proactively enhanced my skill set through self-study and hands-on experience, focusing on developing minimalistic components to meet system requirements. Additionally, I stayed updated on the latest industry trends and practices.
- Training Duration: 300 hours
